**We checked for:** Salvage, Junk, Rebuilt, Fire, Flood, Hail and Lemon.

## Open Recalls

Recall #: E0E | STOP SALE - - Remedy Available - Certain 2010 - 2014 MY Prius Vehicles - Software Update for Motor Generator ECU and Power Management ECU Recall Date: 2014 Feb 12

### Recall Description

Toyota is recalling certain model year 2010 through 2014 prius vehicles. In the affected vehicles, the intelligent power module (ipm) inside the inverter module (a component of the hybrid system) contains transistors that may become damaged from high operating temperatures. If this occurs, various warning lamps will be illuminated on the instrument panel and the vehicle will have reduced power allowing it to only drive a short distance.

### Remedy

Toyota will notify owners and dealers will update the software for both the motor/generator control electronic control unit (ecu) and the hybrid control ecu, free of charge. If an owner experiences a failure of the inverter before the vehicle receives updated software, the dealer will replace the inverter assembly with a new one at no charge. The recall began on march 21, 2014. Owners may contact Toyota at 1-800-331-4331.

This recall was open as of the date/time that this report was generated. For more information, or to find out if the recall has been closed, please contact TOYOTA or visit [Toyota's website](#).

Recall #: GOU | - Remedy Notice Certain 2010 - 2012 Model Year Prius Certain 2010 and 2012 Model Year Prius Plug-In Curtain Shield Air Bag

Recall Date: 2016  
Jun 28

### Recall Description

The involved vehicles are equipped with curtain shield air bags (CSA) in the driver and passenger side roof rails that have air bag inflators composed of two chambers welded together. Some inflators could have a small crack in the weld area joining the chambers, which could grow over time, and lead to the separation of the inflator chambers. This has been observed when the vehicle is parked and unoccupied for a period of time.

### Remedy

Toyota dealers will install retention brackets on the curtain shield air bag inflators at NO CHARGE.

This recall was open as of the date/time that this report was generated. For more information, or to find out if the recall has been closed, please contact TOYOTA or visit [Toyota's website](#).

Recall #: JOV | - Remedy Notice Certain 2010-2014 Model Year Prius Certain 2012-2014 Model Year Prius V Hybrid System Software Update

Recall Date: 2018  
Oct 04

### Recall Description

The involved vehicles were designed to enter a failsafe driving mode in response to certain hybrid system faults. Toyota has found that in rare situations, the vehicle may not enter a failsafe driving mode as intended. This recall remedy will address a new condition in the vehicles involved in previous Safety Recalls E0E & F0R. The previous recalls E0E & F0R did not anticipate the new condition remedied with this recall.

### Remedy

Toyota dealer will update the software for the hybrid system performed FREE OF CHARGE. For customer satisfaction, if the vehicle has experienced an inverter failure with certain hybrid system faults related to this condition, the inverter assembly will be repaired or replaced FREE OF CHARGE.

This recall was open as of the date/time that this report was generated. For more information, or to find out if the recall has been closed, please contact TOYOTA or visit [Toyota's website](#).
